PROJECTS

AI-POWERED PNEUMONIA DETECTION SYSTEM USING MULTI MODAL ANALYSIS , November 2024 - December 2024

- It's a Mini project which has done in our 5th sem with my 4 team members in that my role is to gather the data required like X-ray report and CT scan image for giving input to the project

RANDOM PASSWORD GENERATOR , October 2024 - October 2024

- Designed and developed a secure, user-friendly Random Password Generator using HTML, CSS, and JavaScript. This project enhances cybersecurity by generating strong, unpredictable passwords with customizable options such as length, uppercase/lowercase letters, numbers, and special characters.

ROCK PAPER SCISSOR, September 2024 - October 2024

- Designed and developed a dynamic Rock Paper Scissors game using HTML, CSS, and JavaScript, offering an engaging and interactive user experience.
